

## Lever 1, Lever 2 & Lever 3

# Transforming On-Premise Data Architecture into a Cost-Efficient Cloud Solution that Enables Business Data-Driven Capabilities.

### Goals:

- 1** Transition from an on-premise data architecture to a cost-efficient cloud solution
- 2** Extract value from data for business, operations, and customer service.
- 3** Optimize current data operations.

### Solution:

Sofka Technologies, a trusted leader in digital transformation, devised a holistic solution to address Aseguradora Solidaria's challenge. The proposed solution encompassed a comprehensive Business Data Driven approach aimed at leveraging data as the company's most valuable asset. This approach integrated various components, including cloud data architecture, information flow reengineering, data curation, data governance, master data management, strategic, operational, and tactical BI 360 dashboards.

### Results:

Results: The transformation through this project is going to be nothing short of remarkable. Aseguradora Solidaria successfully transitioned from an on-premise data architecture to a cost-efficient cloud solution. The optimization of data operations and the enhanced ability to extract value from data had a profound impact on the company.

The introduction of BI 360 dashboards empowered stakeholders with synchronized insights to make data-driven decisions. Data curation and governance ensure data quality and consistency, while master data management centralized critical business data, streamlining operations. It is still in implementation.

### Conclusion:

Sofka Technologies' partnership with Solidaria resulted in a transformative data architecture shift, enabling the company to harness the full potential of data as a valuable asset.

The holistic approach encompassing data centralization, optimization, and intelligent insights positioned Aseguradora Solidaria for future growth, operational efficiency, and enhanced customer service. This case study stands as a testament to the power of data-driven transformation in today's business environment.
